B.Tech CSE graduate with hands-on internship experience in Java Full Stack Development, Machine Learning, and Cybersecurity. Skilled in Python, Java, SQL, Odoo, and AWS, with a strong foundation in software development and problem-solving. Seeking an entry-level Software Engineer / Full Stack Developer role to apply technical expertise, contribute to innovative IT projects, and grow in a dynamic technology-driven environment.

Work Experience

Java Full Stack Development Intern

Blackbuck Engineers (Associated with APSCHE)

Dec 2024 - Apr 2025

Contributed to one successful projects during a 5-month internship in Java full-stack development by actively designing and implementing solutions that enhanced application performance.

Full Stack Java Intern

ExcelR

Jun 2024 - Jul 2024

- During this online program, I completed one major and one minor project, demonstrating initiative and project management skills.
 - Minor Project: Developed and deployed a web-based Weather Application utilizing Java Spring Boot framework with Hibernate ORM. Implemented features including real-time weather data retrieval, multi-location search functionality, and historical weather data storage. Demonstrated proficiency in RESTful API integration and database management.
 - Major Project: Led a 4-member team in developing a Train Ticket Booking System using Java Spring Boot and Hibernate. Implemented core features including user authentication, real-time seat availability, booking management, and secure payment processing. Demonstrated project leadership and team coordination skills while ensuring timely delivery of all modules.

Cyber Security Intern

DevSkillHub

Mar 2024 - May 2024

- Applied Cyber Security skills by conducting 3 hands-on security assessments and threat analyses in controlled environments, utilizing industry-standard tools such as Wireshark, Nmap, and Metasploit, and demonstrating proficiency in network security, vulnerability assessment, and incident response.

Machine Learning Using Python Intern

Codegnan IT solutions

May 2023 - Jul 2023

- Applied machine learning techniques using Python to develop predictive analytics models, emphasizing data preprocessing and model development in hands-on projects. Implemented various ML algorithms using NumPy, Pandas, and Scikit-learn. Developed practical projects including classification models and regression analysis.

Education

Nimra College of Engineering & Technology

CSE | B.Tech | Vijayawada

Oct/2021 - Apr/2025

Sri Pratibha Junior College

MPC | Intermediate | Ongole

2019 - 2021

Municipal High School

SSC | Ongole

2018 - 2019

Skills

Hard Skills

Ms office, Vscode, HTML, CSS, JavaScript, Bootstrap, Owl, Nodejs, Pandas, NumPy, Odoo, Python, Java, GitHub, AWS, MS SQL Server, MongoDB

Soft Skills

Software Engineer, Full Stack Developer, Odoo Developer, problem-solving, project leadership, team coordination, RESTful API integration, database management, motivation

Projects / Webinars

National level Webinar on “Machine Learning”

Jan 2022 - Jan 2022

Actively participated in a National level Webinar on “Machine Learning” organized by the P.G. Department of Computer Applications at Nimra College of Engineering on 11-01-2022.
